

Important information about COVID Vaccinations in Lambeth

Getting your first vaccine

If you are over 45, a carer or clinically vulnerable and have not yet had your vaccine, please book an appointment as soon as you can to protect you. As well as being able to book an appointment at selected pharmacies or vaccination centres across London through the national booking system, (www.nhs.uk or **call 119**) there are appointments available at Lambeth GP vaccination sites. Please check which site covers your GP practice and contact the site to book. **Details are below.**

Additional walk-in vaccination slots and 'pop-up' clinics are being added regularly. No appointment is needed at these clinics. Please check www.selondonccg.nhs.uk for updates.

If you are due your second dose

The nationally agreed gap between the first and second dose of the vaccine for COVID-19 is between 11 to 12 weeks. Your second dose will be the same vaccine as your first one. Everyone who has had their first vaccine has a second vaccine reserved for them. Appointments for second dose vaccines are being offered to everyone who is due to have one. Please wait to be contacted with your appointment. If it is 11 weeks since your first dose but you have not yet been contacted to book your second appointment, please call the site where you had your first dose. **Details are below.**

If you had your first dose at a hospital please contact them directly about your second dose.
